## ANNOUNCEMENT

### **COMMUNICATIONS**

in our journals

**Discrete Mathematics and Discrete Applied Mathematics**

In order to facilitate the speediest publication of the results of recent research, we have introduced a COMMUNICATIONS section in our journals.

Manuscripts submitted for the Communications section, having at most 4 typewritten pages, should be sent to a member of the editorial board in triplicate. Detailed proofs do not have to be included, but results must be accompanied at least by rough outlines of their proofs. Subsequent publication in this journal or elsewhere of the full text of a research report, the outline of which has been published in the Communications section of our journal, is not excluded. Since every effort shall be made for the fastest possible publication of Communications, all proofreading will be done by the Publisher's staff and no proofs will be sent to authors. Consequently the presentation of these manuscripts should be very clear.
